

NKEMATU BONAVENTURE

Engineering Team Lead & Full-Stack Developer

Lagos, Nigeria (Open to Remote) | chulocr8v@gmail.com | github.com/chulocr8v | linkedin.com/in/chulocr8v

PROFESSIONAL SUMMARY

Engineering Team Lead and Full-Stack Developer with 5+ years of experience building and shipping production web applications, backend systems, and SaaS products. Experienced in React, Next.js, TypeScript, NestJS, PostgreSQL, cloud infrastructure, and AI-powered applications. Proven experience leading engineering teams, designing scalable systems, and delivering products from concept through deployment.

TECHNICAL SKILLS

- Frontend:** React, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, Ant Design
Backend: NestJS, Node.js, Express, REST APIs, Microservices
Data & Databases: PostgreSQL, Prisma ORM, MongoDB, Redis, Schema Design
Cloud & DevOps: AWS (ECS, S3, RDS), Oracle Cloud (OCI), Docker, CI/CD Pipelines
AI & Integrations: OpenAI API, Groq API, Microsoft Graph API, Telegram Bot API, Stripe

PROFESSIONAL EXPERIENCE

Engineering Team Lead

Zoracom | 2025 — Present

Lead engineering delivery across frontend, backend, and cloud infrastructure while guiding developers, improving engineering practices, and shipping production systems.

- Led an 11-person engineering team across developers and designers.
- Built and maintained full-stack applications using React, Next.js, NestJS, PostgreSQL, and Prisma.
- Improved engineering workflows through reviews, architecture discussions, and deployment practices.
- Supported developers through mentorship and technical guidance.

Full-Stack Developer

Zoracom | 2023 — 2025

Engineered mission-critical features and backend services across web interfaces and cloud infrastructure.

- Developed production web applications using React, TypeScript, NestJS, Node.js, PostgreSQL, and Prisma.
- Designed APIs, database structures, authentication flows, and business workflows.
- Integrated cloud deployments using AWS and Oracle Cloud.
- Built AI-powered workflows using LLM APIs.

Frontend Developer

Zoracom | 2021 — 2023

Specialized in building responsive, accessible, and performant web dashboards and reusable component libraries.

- Built responsive dashboards and applications using React, TypeScript, Ant Design, and Tailwind CSS.
- Created reusable frontend components and translated designs into production interfaces.
- Improved frontend performance and maintainability.

SELECTED PRODUCTION PROJECTS

QikCV (Primary Showcase)

Product Architecture & Full-Stack Development

Tech Stack: React, TypeScript, NestJS, PostgreSQL, Prisma, Puppeteer, Stripe

AI-powered CV optimization platform that analyzes job descriptions, improves resume alignment, and generates application-ready documents. Engineered headless Puppeteer PDF pipeline inside Docker containers and Stripe credit billing.

BotForge

Backend Systems & Telegram Bot Architecture

Tech Stack: NestJS, PostgreSQL, Prisma, React, Redis, BullMQ, Stripe, Telegram API

Multi-tenant broadcast automation and subscriber management platform for Telegram communities. Dispatched broadcasts under strict rate limits and automated invite link generation upon subscription.

Qikenv (Open-Source CLI Tool)

CLI Creator & Maintainer

Tech Stack: TypeScript, Node.js CLI, NestJS, PostgreSQL, Prisma, AES-256 Crypto, npm Registry

Encrypted team secrets vault with Optimistic Concurrency Control (OCC). Published on npm (1,800+ downloads) to prevent developer configuration overwrites and secure production credentials.

NEMSA Inspection System

Lead Full-Stack Engineer (Zoracom)

Tech Stack: React, TypeScript, NestJS, PostgreSQL, Prisma, Docker, Oracle Cloud

National electricity compliance and field inspection operations system. Digitized 15,000+ safety audits with cryptographic QR certificates, reducing processing cycle from 6 weeks to 4 days.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

2016 — 2020

University of Lagos | Focus on Distributed Systems, Algorithms, Database Systems, and Software Engineering.
